WELCOME

LUSAKA IVF & FERTILITY CLINIC
MAKING FAMILIES COMPLETE

WHO WE ARE

Lusaka IF and Fertility Clinic is a Zambian specialist clinic offering gynecology, fertility and maternity services. We have been in operation since October 2015

and have registered more than 100 babies by May 2018 born through our Assisted Reproductive Techniques (ART) treatments. We are part of a big network across East and Southern Africa including Uganda (Women's Hospital International and Fertility Centre, Kampala), Tanzania (Dar IF and Fertility Clinic and Sali International Hospital, Dar-es-Salaam and Kampala Uganda. We house a highly qualified medical team in the areas of gynecology, obstetrics and embryology.

We are committed to providing meticulous individualized and compassionate reproductive health to all our patients. We do this with utmost professionalism and passion in a safe and supportive environment, with state-of-the-art technology, guided by the highest ethical standard.
